

TrueVoc200

360° Interface Microphone

TrueVoc200 consists of two daisy chain microphones to reach a 360 degree coverage. They effectively increase voice pick-up range and demonstrate high S/N ratio, good sensitivity and lower background noise. Natural clear audio pick up, outstanding stability, this set of microphone is ideal for large boardroom conference setup. One set of TrueVoc200 can sufficiently service participants speaking from every angle and moving talk. Installation and usage are straight forward simple for all kinds of video conference application.

Technical Specifications

Model	TrueVoc200
Pick-up Pattern	360 Degree
Frequency Response	30Hz~18000Hz
Max. Sensitivity	-16dB
S/N	More than 74dB
Nominal Impedance	200 Ω
Pick-up Range	Horizontal 360°, Vertical 60°
Pick-up Distance	Up to 12 meters
Power requirements	DC
Color	Black
Dimensions (Single)	114(L)mm × 89(W)mm × 17(H)mm
Weight (Single)	450g
Cable length (Single)	7m
